ENVIRONMENTAL ASSESSMENT (EA) AND FINDING OF NO SIGNIFICANT
IMPACT (FONSI) – FINANCIAL ASSISTANCE TO MCMINNVILLE-WARREN
INDUSTRIAL DEVELOPMENT BOARD, MCMINNVILLE, WARREN COUNTY,
TENNESSEE

In accordance with the National Environmental Policy Act (NEPA) and TVA's implementing procedures, Environmental Stewardship and Policy has prepared the attached EA and determined that the potential environmental consequences of TVA's action have been addressed. We conclude that the proposed action of providing financial assistance to the McMinnville-Warren County Industrial Development Board to cover less than twenty percent of the cost for construction of a building expansion to be occupied by Morrison Tool and Fab is not a major federal action significantly affecting the environment. Thus, an environmental impact statement is not required.

Paper copies of the EA and this FONSI will be retained in TVA's NEPA documents file. An electronic version of this documentation will be stored in the Electronic Document Management System.

Jon M. Loney, Manager
